

## Certificate of licence

This is to certify that Glebe Farm Foods has been accepted as a holder of an annual Coeliac UK licence to display the Crossed Grain symbol in Europe under the licence numbers listed below.

Product name	Licence number
Beer	GB-040-001
Carrot Cake mix	GB-040-002
Chocolate Cake mix	GB-040-003
Cranberry and Blueberry Muffin mix	GB-040-004
Ginger Cake mix	GB-040-005
Jumbo Oats	OATS-GB-040-006
Oat Bran	OATS-GB-040-007
Oat Flour	OATS-GB-040-008
Oat Fruit Muesli	OATS-GB-040-009
Oat Granola Crisp Strawberry	OATS-GB-040-011
Pizza Base mix	GB-040-012
Plain Flour	GB-040-013
Porridge Oats	OATS-GB-040-014
Self Raising Flour	GB-040-016
Wellington Bomber Porter	GB-040-019
Gluten and Wheat Free Maple and Banana Granola Crisp	OATS-GB-040-020
Stirling Gluten Free Lager	GB-040-021
Oat Granola	OATS-GB-040-022
Organic Oat Granola	OATS-GB-040-023
Organic Oats	OATS-GB-040-024
Scone Mix 400g	GB-040-025
Chocolate oat granola	OATS-GB-040-026
Coconut Rice Granola	OATS-GB-040-027
Scone Mix 300g	GB-040-028
Gluten Free White Bread & Pizza Mix	GB-040-029
Gluten Free Seeded Brown Bread Mix	GB-040-030

The range of gluten free products listed under the licence must comply with the AOECs Standard for gluten free foods.

Date: 01/02/2017

Sarah Sleet, Chief Executive

## Appendix I. Standard for Crossed Grain symbol certification

Products must comply in full with the AO ECS Standard for gluten free foods.

In summary:

### 1. The current level of gluten permissible for licensing the Crossed Grain symbol is 20 parts per million (ppm) or less.

Note: gluten is found in wheat, rye, barley, spelt, Khorasan wheat (sometimes sold commercially as Kamut®) and their hybridised strains.

The permitted level for gluten free labelling purposes is based on the definition of gluten free as specified in the Codex Standard for Foods for Special Dietary Use for Persons Intolerant to Gluten (Codex Standard 118-1981).

### 2. Test certificates must be provided for every product

Test certificates must be from an accredited laboratory using the recommended method for gluten analysis as specified by CCMAS.

### 3. A valid audit certificate must be provided for every manufacturing facility.

Currently accepted audit standards are BRC or AO ECS Standard for gluten free foods.

### 4. Oat products

Oat products may be licensed as long as they are uncontaminated by gluten-containing cereals in all stages of production, eg milling, processing, storage and packaging. Uncontaminated oats are considered safe for most people with coeliac disease; however some people with coeliac disease may be sensitive to them. If uncontaminated oat ingredients are used in a product that is 'gluten free' the oat ingredient must have a gluten content that is 20 ppm or less.

The full AO ECS Standard for gluten free foods is available [www.aoecs.org/aoecs-gluten-free-standard](http://www.aoecs.org/aoecs-gluten-free-standard).
